PROFESSIONAL SUMMARY

Final-year B. Tech CSE student building full stack web applications with Node.js, Express, PostgreSQL and React. Experienced in designing REST APIs with JWT authentication, request validation and relational data models. Seeking a backend or full stack engineering role.

EDUCATION

College of Engineering, Adoor *Adoor, Kerala*

Bachelor of Technology in Computer Science and Engineering — Expected Graduation: May 2027 | CGPA: 6.71

Class XII, Kerala — 81% *2023*

Class X, Kerala — 95%*2021*

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript, SQL
Backend: Node.js, Express.js, REST API design, JWT, bcrypt, Zod, Prisma ORM, Multer, Nodemailer, node-cron
Frontend: React, Vite, Tailwind CSS, HTML, CSS
Databases: PostgreSQL, MySQL
Tools & Platforms: Git/GitHub, Linux, VS Code, Vercel
Fundamentals: Data Structures & Algorithms, DBMS, OOP, SDLC
Additional: Flutter, Pandas, NumPy, OpenCV, YOLOv8

PROJECTS

Passio *Community Platform*

React, Node.js, Express, PostgreSQL, Prisma, Tailwind CSS | github.com/git-vishnu-1/passio

- Built a full stack PERN application with JWT authentication stored in HTTP-only cookies and Zod request validation across a modular REST API.
- Implemented cursor-paginated post feeds with sorting, tag filtering and search, plus nested comments and atomic like/unlike toggles.
- Modeled users, communities, posts, comments, tags and bookmarks in a relational schema using Prisma, and seed data for demos.

Internship Application Tracker *Academic*

Node.js, Express, MySQL, JWT, bcrypt | github.com/git-vishnu-1/mini-project

- Developed a web-based application to centralize student internship data, allowing users to track applications from both college placement cells and external sources.
- Implemented advanced search, filtering, and status-management features to update application lifecycle stages in real time.
- Streamlined the internship application process, replacing manual tracking methods with a unified dashboard for status updates.

Bookmark Manager API

Node.js, Express, MySQL | github.com/git-vishnu-1/bookmark-manager

- Designed a normalized schema with many-to-many tags and FULLTEXT search, using parameterized queries and input validation throughout.
- Exposed REST endpoints for creating bookmarks, tagging them and searching, with a health-check endpoint for database connectivity.

CGPU CEA Website *Academic*

HTML, CSS, JavaScript | github.com/git-vishnu-1/cgpu

- Built the responsive website for the Career Guidance and Placement Unit, covering recruiters, year-wise placement data and contact details.

EXPERIENCE

Techmaghi — Data Science & ML Intern *Kerala Startup Mission | June 2026*

- Cleaned and preprocessed real-world datasets using Python, NumPy and Pandas.
- Performed exploratory data analysis and built visualizations to surface patterns in the data.

Internz Learn — Python Trainee *Remote | October 2025*

- Practiced Python fundamentals including functions, OOP and file handling by solving algorithmic problems.
- Worked with Python libraries for basic data analysis.

SRAI Smart Solutions Pvt. Ltd. — Flutter Mobile Application Development Intern *Remote | June 2025*

- Built responsive cross-platform mobile screens using Flutter widgets and Dart.
- Implemented basic app features while following the Flutter development workflow.

LEADERSHIP

IEEE SB CEA — Web Master *March 2026 – Present*

- Design, develop and maintain the IEEE Student Branch website, keeping event and organizational information up to date.

CGPU CEA — Executive Committee Member *February 2026 – Present*

- Help organize placement-related workshops and act as a liaison between students and industry recruiters.
